Your challenge is to make a flyer with a campaign slogan that not only gets attention, but that also makes a powerful statement!

**“8-Ball Pool”**

**Directions:**

<https://www.coolmathgames.com/0-8-ball-pool>

**Directions for the Game:**

This is a game that everybody loves to play on their phones against other people. If you don't know what 8-Ball Pool is then you might be living under a rock then. The goal of the game is beat the other person you are playing against or the computer. You can continuously play and don't have to stop! Your goal for the week is to beat the CPU three times. If you beat the computer, you have to beat the CPU by just one go! So that means the computer can't have a chance to hit a ball at all! That's the real challenge so good luck and get going!
