# Super Bouncy Balls

Mr. Alec

[aforney@bgclubcab.org](mailto:aforney@bgclubcab.org)

## **Ingredients**

- 1/2 Cup of Warm Water
- 1 TBSP of Borax
- 1 to 2 TBSP of Elmer's Glue (add glitter glue for pizzazz)

## **Directions:**

How to Make Super Bouncy Balls

Step 1: Making Borax Solution

You want to stir together the 1/2 cup of warm water and 1 tablespoon of borax, until it is completely dissolved (add more water if it doesn't all dissolve).

If the water is hot, allow it to cool.

Step 2: Add Your Glue

Next slowly pour your desired amount of glue into the bowl of borax solution. The more glue you use, the bigger the ball! (We used about 2 tablespoons of glue)

To get this light blue translucent glitter super bouncy ball, we combined clear and glitter glue together as we poured it into the borax solution.

Step 3: Squish and Squeeze!

As soon as the glue hits the borax solution it will start to harden. Gently squeeze and squish the glue ball until it is no longer sticky.

Remove from the borax solution and roll between your hands to make it ball shaped.

*Note: The glue is going to go hard, not the borax solution. You will be left with a bowl of solution, so you can repeat the process and make as many super bouncy balls as you like!*  
That's it! How easy is that? And they really do BOUNCE!

A word of warning. These super bouncy balls are basically very very thick slime. So if you leave them for any length of time they will slowly go flat and make a disc. But it's very simple to just roll them in your hand to make them ball shaped again.

## Directions:

## Directions for the Game:

This is a change up on the type of game. The main goal of this game is to conquer other lands but to also make sure you don't lose your land either! You will click and drag a line from your land (green) to the opposing land (blue or red). There are instructions when you are playing the game that will help you out along the way. Remember, the goal is to take over the other lands before they take over your land!
